Immaculate Conception High School Paroda; Murgaon High School, Sada-Vasco; Our Lady of Fatima High School, Rivona; and Government High School Juna Bazar-Ponda, Goa

invite you to attend

GATHERING THE WISDOM: BUILDING INCLUSIVE SCHOOLS IN GOA

WE INVITE YOU to come all together to share your PATHS with each other, celebrate successes, find allies, reflect on struggles and barriers and identify solutions together. There is much to be learned from your work towards creating inclusive schools, and you will set the stage for others to follow.

In 2019, four schools in Goa took up the challenge of creating more inclusive schools where all students can thrive and grow. Each school has a vision and a unique PATH which enriches their efforts. Now we come together to move the vision forward.

29 February 9:30-5
at Nanutel Mangao Padre Miranda Road, Mangao, Goa, 403601, India

Contact: Ms. Preethy Ani Jose preethy.jose@sangath.in

This participatory, active event will encourage group dialogue and will be facilitated by the seasoned team of Dr. Thomas Neuville and Elizabeth Neuville from Keystone Institute India.

Thomas Neuville serves as Professor of Special Education and Disability Studies in the Department of Educational Foundations at Millersville University in Pennsylvania, United States. He has more than forty years experience in education, community, and organizational development.

Betsy Neuville serves as Executive Director of Keystone Institute, and in-country director of Keystone Institute India. She has well over 30 years of experience designing community-based service models for people with disability, and is a senior master trainer of Social Role Valorization working towards inclusive practice.
